

Magic Bath[®]

THE DOOR TO YOUR BATHTUB

 **FAST**

 **CLEAN**

 **SAFE**

STRAIGHT INTO BATHING PLEASURE

The walk-in-door from Magic Bath® makes it possible. Thanks to its patented installation method, it can be retrofitted easily in almost any existing bathtub and provides a high level of comfort and safety while getting into and out of your bathtub.

After free consultations your Magic Bath® walk-in-door is produced specifically for your bathtub. The installation as such is completed within one working day. Within five to seven hours, the door is in the place where it belongs: without "construction site flair", dirt or damaged tiles. After another 24 hours, you can continue to use your bathtub as before.

The walk-in-door is ideally suited not only for senior citizens but also for families having small children or pet dogs. The comfortable entry dispenses with lifting, is safe and conserves the back. Thousands of satisfied customers bear testimony to this.
